

bags for general waste collection,

Brighten up your hospital. Liners needn't be boring. They can have multiple uses such as segregating laundry and linen, recycling, and a variety of waste collection needs.

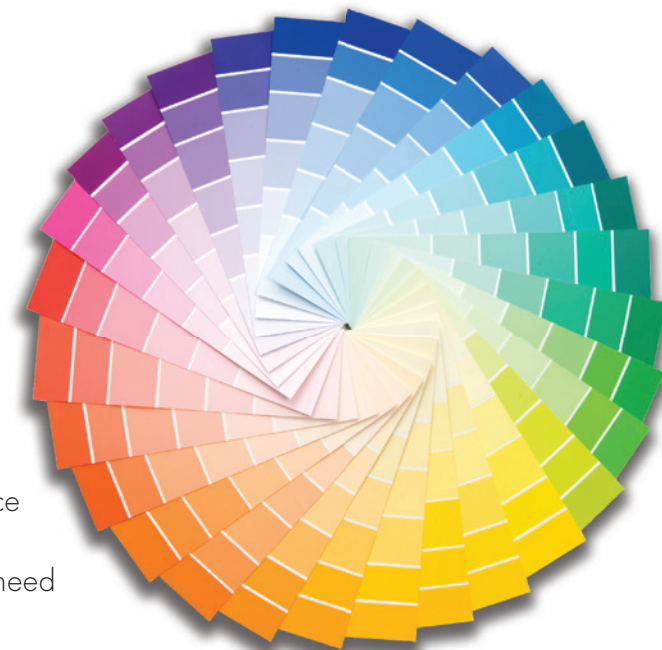

bags for internal needs,

Safeguard staff and specimen. Lab specimen bags require special handling. Order them in a color to identify a specific department or need. Have them imprinted with your facility's name logo, instructions or foreign language, and add special features like amber backing for UV protection.

All the colors of the rainbow and then some.

Want a bag that replicates your hospital's corporate logo or colors? Or one that denotes a particular regulatory compliance message? Medegen can do it. Tell us your color preference or need and we'll take it from there.

No one has a better handle on handles.

As you can see, we've been very busy at Medegen producing all manner of custom bags. Our custom containment solutions design and production team is prepared to tackle the most demanding custom bag challenges, including specialty handles such as loops, rigid, die cut, drawstring and drawtape handles.

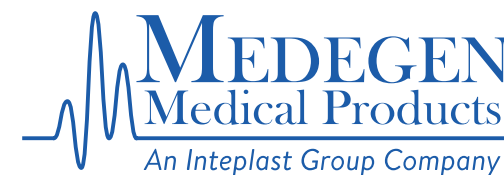

Medegen has all of your bag needs covered from A to Z.

Stop searching high and low for the exact bags you need. From custom bags developed to your exact specifications to general purpose bags to sterility maintenance covers, dust covers, autoclave, water-soluble laundry and linen bags, there's no better resource than Medegen.

Searching for the right bag?

Whether you need bags for special applications,

Unique chemo bag solution. This chemo bag was developed for a hospital pharmacy to aid in the delivery of chemotherapy drugs. It helps reduce exposure to hospital staff while still enabling specific medication, dosage, and patient information to be easily viewed.

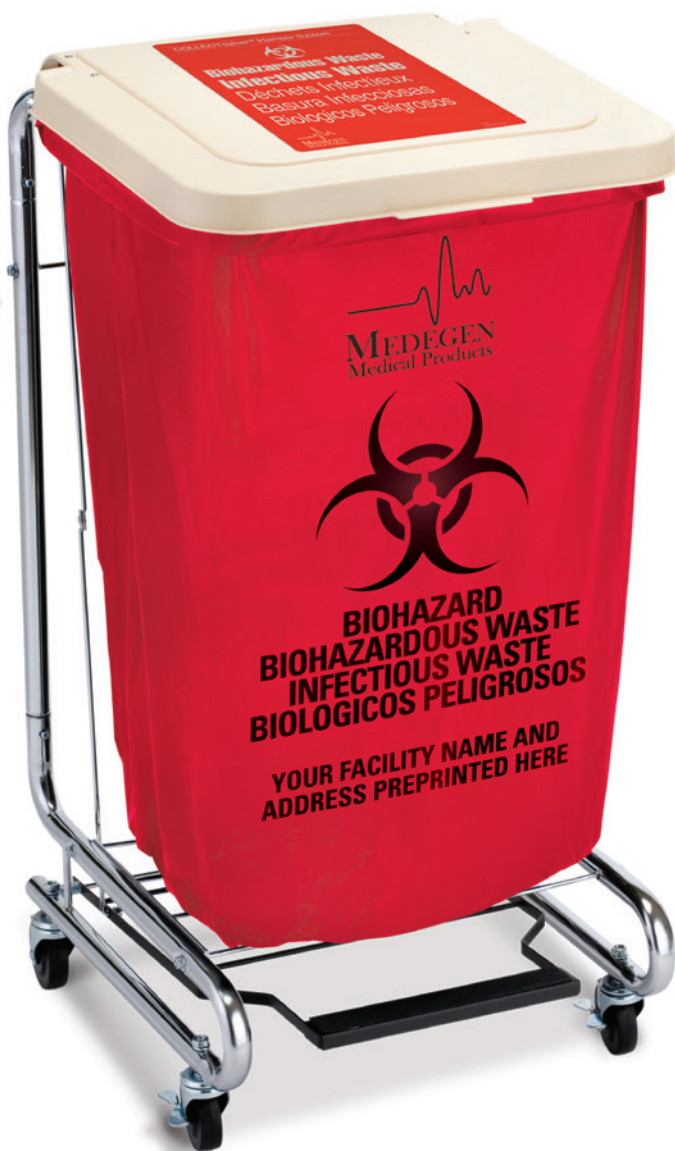

Smart and secure scope transport.

Custom scope transport bags like these enable secure containment of reprocessed scopes to procedure rooms. Red bags identify dirty/contaminated scopes, and clear bags identify clean/processed scopes.

Umbrella bags help prevent falls. This bag was developed to help reduce water on floors and minimize the risk for personal injuries. It has holes for hanging on available umbrella stands.

bags to meet regulatory compliance,

Regulatory compliance solutions. Medegen offers custom liners in a wide variety of sizes, gauges and colors to meet your hospital's waste handling needs, as well as Federal, DOT, State requirements and OSHA regulations. They come color coded to help facilitate waste-stream segregation and minimize disposal costs associated with biohazardous waste. Hamper stand agreements are available upon request.

or bags for marketing your facility or services,

Turn bags into marketing tools. Let us help you market your hospital with a handsome custom bag imprinted with your hospital's name, logo or slogan.

Medegen has no equal.

MEDEGEN MEDICAL PRODUCTS offers the largest selection of standard containment solutions available anywhere. But given the varied and distinctive needs of hospitals, there are times when only something special will do. This is why we developed our custom bag capability. So, instead of searching for an additional vendor to provide made-to-order bags, you can go to one proven supplier for all your containment needs.

KEY BENEFITS
