

# Measurement & **COLLECTION**

Today, more than ever, medical professionals can't afford to settle for just average performance in their health care products. It's critical for you to know you can count on every product performing as expected. That's why Medegen pays meticulous attention to every detail of its full line of Measurement & Collection Products. Working under the most stringent quality controls ensures that every product from Medegen is crafted to exacting standards, from design and manufacture to packaging and delivery. Superior performance begins with uncompromising quality. Let us help you provide...

## Better Healthcare Through Better Products.

# Measuring Containers

## Measuring Graduates

These measuring containers are graduated on both sides in both ounces and cc's and are ideal for measuring intake or output. Translucent material offers easy viewing of content level. Both the 00032 and H960-01 have convenient pour-spouts.

Item 02033 has a built in holder for a bulb or piston syringe which also serves as a handle. The compact and stable design is advantageous for irrigation use, in sterilization and permits stackable storage. The pronounced pour spout allows narrow stream pouring on small surface areas. The 4 1/8" height will not extend above the rim of a ring stand basin, minimizing accidental tearing of the overwrap. The 02033 works well in conjunction with other O.R. kit components.

Part #	Description	Capacity	Case Pk.	Sterilizable	Material	Packaging
00032	Measure Graduate w/Handle	34 oz./1000mL	24	Yes	PP	Bulk
H960-01	Measure Graduate w/Handle	34 oz./1000mL	150	No	PP	5 Sleeves of 30 Each
PC2135-150	Measure Graduate w/Handle	34 oz./1000mL	150	No	PP	Bulk
PD1635-150	Measure Graduate w/Handle	34 oz./1000mL	150	Yes	PP	Bulk
02033	Measure Graduate Short	40 oz./1200mL	60	No	PP	4 Sleeves of 15 Each

## Triangular Graduates

- Ideal for measuring intake or output, these easy-to-handle graduated containers have a frosted panel for writing pertinent patient information
- H971-01 and H972-01 are made from unbreakable translucent polypropylene
- The H972-01 has printed black graduations for increased visibility and ease of measuring fluid level
- Having the same triangular design, H971-01 and H972-01 are graduated in 50 cc and 2 ounce increments up to 1,000 cc's and 32 ounces

Part #	Description	Capacity	Case Pack	Sterilizable	Material	Packaging
H971-01	Triangular Graduate	32 oz. / 1000mL	200	No	PP	20 Sleeves of 10 Each
H972-01	Triangular Graduate	32 oz. / 1000mL	200	No	PP	20 Sleeves of 10 Each

## Intake & Measuring Containers

The 02068A is translucent with red graduations and is graduated in 10 cc increments, from 30 cc to 270 cc's and, also, in 1/2 oz. increments, from 1 oz. to 9 oz's. The 02068A is also frosted to help reduce slipping during handling. The 02067 and 02069 are graduated in 1/2 oz. increments from 1/2 oz. to 8 oz's. and, also, in 10 cc increments, from 10 cc's to 230 cc's.

Part #	Description	Capacity	Color	Case Pack	Sterilizable	Material	Packaging
02068A	Tumbler	9 oz. / 270mL	Translucent	500	No	PP	20 Sleeves of 25 Each
02069	Tumbler	8 oz. / 230mL	Clear	500	No	PS	25 Sleeves of 20 Each

# Measuring Containers

## Spouted Collection Containers

These 8 oz. containers are available in both polystyrene and polypropylene. Polystyrene enhances clarity while polypropylene improves durability. Both options come with a convenient pour spout for simplified specimen transfer. Each 8 oz. container is graduated in 10 cc (mL) and .5 ounce increments up to 6.5 oz. Printed lids can also be purchased separately. Lids highlight patient name, doctor, date, time, am / pm, room number and case number.

Part #	Description	Capacity	Case Pack	Sterile	Material	Packaging

# Specimen Containers

## KlikSeal™ Specimen Containers for Pneumatic Tube Systems

- Virtually leak-proof ensured by patented thread design and invertible cap
- Meets 95kPa requirements
- The audible 'click' when tightening the lid onto the base indicates secure and optimal closure
- Click avoids over tightening, reducing clinical muscle strain
- Lid designed to enable stacking of multiple containers
- Sterility-seal (on sterile containers only) and patient ID label affixed to the container for date, number, name & doctor
- Available in bulk pack and OR peel pouch packaging options
- Labels meet Joint Commission requirements and Federal Patient Safety guidelines

Part #	Description	Capacity	Case Pack	Sterile	Material	Packaging
01061	KlikSeal™ Specimen Container	4 oz. / 120mL	100	Yes	PP / HDPE	O.R. Peel Pouch
01062	KlikSeal™ Specimen Container	3 oz. / 90mL	100	Yes	PP / HDPE	O.R. Peel Pouch
01063	KlikSeal™ Specimen Container	4 oz. / 120mL	300	Yes*	PP / HDPE	3 Bags of 100 Each
01064	KlikSeal™ Specimen Container	3 oz. / 90mL	400	Yes*	PP / HDPE	4 Bags of 100 Each
02057	KlikSeal™ Specimen Container	3 oz. / 90mL	400	No	PP / HDPE	Bulk
02058	KlikSeal™ Specimen Container	4 oz. / 120mL	300	No	PP / HDPE	Bulk

The 90 cc containers are graduated in 1/4 oz. increments from 1/2 to 3 oz. and also in 10mL increments from 20mL to 90mL

The 120 cc containers are graduated in 1/4 oz. increments from 1/4 to 4 oz. and also in 10mL increments from 20mL to 120mL

## Straight Wall Specimen Containers with Temperature Strip

- Ideal for Drug testing with temperature strip and identification label
- Clear reliable temperature strip
- Leak proof transport to 95kPa, DOT, IATA standards
- Tamper evident patient label meets Joint Commission requirements
- Available in standard 48mm and wide mouth 53mm diameter containers

Part #	Description	Capacity	Case Pack	Sterile	Material	Packaging
4941	Orange Lid w/Sterility Seal Label w/Temp. Indicator	3 oz./90mL	400	Yes*	PP/PE	4 Bags of 100each

## Helpful Hand™ Specimen Containers Accessories

Ideal for female users, the Helpful Hand™ is a specimen cup holder which allows users a comfortable and hygienic means with which to give a high quality urine sample. The patient can easily give a specimen without soiling their hands. The Helpful Hand helps reduce the risk of contaminated samples and, therefore, helps reduce the need for costly retesting.

- 4907-12 Tab ring easily screws to the top of the specimen cup and has a tab for easy handling and collection of specimen without the patient soiling their hands. Once specimen is collected the tab ring is easily removed and the cover can be screwed to the base of the specimen container.

# Collection Kits

4141A

## Gent-L-Care™ Midstream Catch Kits

- Obtain clean catch with ease using convenient collection kits with either tab rings or anatomically contoured funnels
- Each 4 oz. specimen container is calibrated in 10mL and .25 ounce increments up to 120mLs
- Select kits with BZK or Castile soap towelettes
- All pertinent supplies are conveniently placed within each package
- Illustrated instructions are included in each kit to simplify the procedure
- Labels have lines for name, room number, doctor, date, time and type of specimen
- Instructions in English and Spanish

## Uri Aid™ Gent-L-Kare™ Collection Kit

The Uri Aid™ is a single use, contoured plastic funnel that screws onto the sterile\* leak-resistant specimen container included with this kit. The unique inner funnel design helps direct urine into the container without contaminating the container once the funnel is removed. The specimen container is ideal for pneumatic tube systems. Affixed label has lines for name, date, time, number and test in both English and Spanish.

- The UriAid is effective when assisting children, the elderly, the infirm and during pregnancy when mobility can be difficult
- When used properly, the UriAid eliminates spillage and contamination to the patient's hand, container and surroundings
- Eliminates the need to transfer the sample from a urinal to a specimen container
- Once the cap is correctly and securely screwed onto the specimen container, the seal is leak resistant and ideal for a pneumatic tube system

# Collectors/Strainer

## Commode Collectors

- The container on this commode specimen collector detaches from the ring for convenient transportation and lab use
- Simple instructions on the cover allow the patient to utilize the collector without nursing assistance
- 02050 includes support ring, 1 quart graduated specimen container, lid with instructions and a patient I.D. area with lines for date, time, name, DOB and doctor information
- Securely fitting standard toilets and commodes, the winged-edges on these specimen collectors facilitate application, handling and removal
- Quick visualization and measurement of specimens are easily achieved while the large capacity helps reduce the risk of spills
- A handy pour spout permits specimens to be discarded quickly and safely

02072

## 24-Hour Collection Containers

Ideal for collecting specimens over a 24-hour period, these wide mouth bottles facilitate the addition and retrieval of specimens. A special gasketed screw cap enhances the container's leak-resistance and ensures safety during transport. Containers are available in a translucent white or an opaque amber color. The amber containers are ideal for protecting light sensitive specimens. Labels are provided for proper specimen identification. Containers are graduated from 100 cc to 3000 cc's (mLs) in 100 cc increments.

# Lab Containers

## Laboratory Containers

Useful for specimens even those that require a preservative. Snap-on lid creates a secure seal and helps prevent leaking. Shatter-resistant translucent plastic allows for ease in viewing contents. The 02739 includes a sturdy plastic handle for easy transport.

Part #	Description	Color	Capacity	Case Pack	Sterile	Material	Packaging
02731	Laboratory Container w/ Lid,Tall	Translucent	8 oz.	250	No	LDPE	Bulk
02732	Laboratory Container w/ Lid,Wide	Translucent	16 oz.	100	No	LDPE	Bulk
02752	Laboratory Container w/ Lid,Tall	Translucent	16 oz.	100	No	LDPE	Bulk
02733	Laboratory Container w/ Lid	Translucent	32 oz.	100	No	LDPE	Bulk
02738A	Laboratory Container w/ Lid	Translucent	64 oz.	50	No	LDPE	Bulk
02734A	Laboratory Container w/ Lid	Translucent	84 oz.	50	No	LDPE	Bulk
02735	Laboratory Container w/ Lid	Translucent	168 oz.	25	No	LDPE	Bulk
02739	Laboratory Container w/ Lid & Plastic Handle	Translucent	174 oz.	25	No	LDPE	Bulk

## Histology Containers

- The Histoplex™ polypropylene containers are carefully engineered for the storage of histology specimens
- The patented "O-Ring" polyethylene screw cap on the 40 mL - 1 liter container forms a seal that eliminates most formalin leakage and evaporation
- The polypropylene container is flexible, resists cracking and splitting and helps eliminate the problems associated with formalin evaporation. Histoplex containers are available in a range of sizes
- The translucent 40 mL - 1 liter sizes have graduations for easy fill line viewing
- The 2 - 8 liter containers are opaque polypropylene with unique tamper evident snap-on lids and also come with a removable plastic handle

## Starswabs II – Bacterial Collection

Starswabs II™ are a complete bacteriology and transport system. The color coded cap has a protective over skirt which helps ensure the containment of biohazardous material. All Starswabs are labeled with product number, lot # and expiration date. The thick tube wall protects medium from dehydration and the spiral media chamber keeps sample immersed and protected during transport. The round bottom tube makes for easy racking and the seamless tube molding ensures tube strength and integrity. The rayon tip is inert, non-toxic and permits good sample retrieval and absorption. Starswabs are packaged to promote optimal medium performance. A premium thickness bag creates a barrier environment to prevent premature medium dehydration. the metalized bag further protects the medium from harmful UV rays. The bag also features a ziplock closure which simplifies resealing to better maintain the remaining swabs at peak performance.

- Amies Clear provides excellent survival for a wide range of bacteria and is compatible with gram stain. Shelf life is 24 months.
- Amies Clear provides excellent environment for the survival of anaerobes through the complete immersion of the swabs into the gel and by the presence of the reducing agent, sodium thioglycollate.
- Modified Liquid Stuart's and Liquid Amies provide excellent recovery in routine bacteriology and are compatible with gram stain and many rapid screening methods.
- Modified Liquid Stuart and Modified Liquid Amies shelf life is 18 months.
- Amies Clear shelf life is 24 months.

*Starswabs are packaged to promote optimal medium performance. A premium-thickness bag creates a barrier environment to prevent premature medium dehydration. The metalized bag further protects the medium from harmful UV rays. The bag also features a ziplock closure which simplifies resealing to better maintain the remaining swabs at peak performance.*

## Multitrans Media – Viral Collection

- Packaged in a durable polypropylene vial with a skirted swab retaining cap and glass beads.
- Swabs are scored so it is easily snapped off into the vial; after capping and reopening, the swab is neatly inserted into the cap for easy, contamination free handling.
- Flocked Swabs ensure superior specimen collection and release which provides a more representative specimen sample for testing.
- Flocked swab technology optimizes patient comfort during specimen collection and provides a more representative sample for testing.
- The media vial and sterile wrapped swab are packaged in a sterile plastic peel pack.

SW-080FS	Flocked Nasal Swab	80mm	Yes	1000	5 Boxes of 100

## False-Bottom Vials

The false-bottom vials are acceptable for many different types of automated analyzer systems. The label placement line, located below the threads, allows accurate placement of a barcode label prior to the vial being capped. The opaque band around the bottom of the vial provides a reference for orientation by an automated system. The conical vial bottom prevents probe crashing in most systems. The tapered vial bottom ensures easy placement into racking. Both the plug style and screw caps perform well during specimen processing.
